General Statement

MojoHost supports the uncensored flow of information and ideas over the Internet and does not actively monitor customer activity under normal circumstances. Moreover, MojoHost does not exercise editorial control over the content of any website, email transmission, newsgroup, or other material created or accessible through the services, except for certain proprietary websites. However, MojoHost will not tolerate certain conduct from its customers and others who use its services. The purpose of this acceptable use policy (“*AUP*”) is to inform all customers of the acceptable uses of the services. MojoHost is committed to encouraging the use of the Internet through its services and third-party services, but the use must be consistent with the laws and regulations governing use of the Internet and must protect the right of its other customers to use its services.
